

Maths Year 5 Unit6 Week 6 (T6) Volume - 2022-23 (12.7.23)

Work to Praise and Share

Theo Terry was exceptional in this lesson - with extensive knowledge of imperial measures, equivalents between metric and imperial etc.

Joe S also good.

Support Needed

- Jake W - problems with FAD.
- Riley was poor in this lesson and got upset.
- *Riley and Anushka both yawned loudly without covering their mouths.*

Presentation Highlights

- The usual suspects were poor.
- Elsie D very good.
- Bruno's table is odd and although he has tried, he has no feel for what looks good or works well.
- Ben L - highlight him not using his ruler properly in drawing up the table. Good table, but not related to the lines in the book.
- Thomas Y very example of well presented table. Marysia too. Lola.

Basic Errors

- Just lack of knowledge about imperial measures.

Next Lesson Steps

- So we move on tomorrow with the worksheet.
- Just done on the board today.
- Samuel - explain difference between portrait and landscape! **The only one.**
