

Maths Year 3 Unit1 Week 1 (T1) Place Value Week 1 - 2023-24 (12.9.23)

Work to Praise and Share

Support Needed

Using the trays at the end of each lesson is working to identify children who isn't understanding the objectives.

I have rejigged my seating plan to ensure the children who need the most support are sitting on the front three tables.

Mia and Ava for trying the 5AD. Timers may be helpful and worth trying over the next week to get them to attempt more.

Presentation Highlights

Basic Errors

Generally good at the beginning of term.

Children using the lines well. a few need some small intervention for backwards numbers or reminders to write in the boxes.

Watch Arlo for not writing date and WALT's

Alfie and Theo struggling to find half of a number line even after the class has been shown.

Children reading number line intervals as 5's and 10's in the same number line and getting a little muddled but when the difference is identified can rectify their own mistake.

Next Lesson Steps

Set up opportunity for number challenges for children who need it.

Mini targeted intervention based on children struggling with the objective to return during 5AD time when needed. Next mini intervention during lesson.
