

Maths Year 5 Unit4 Week 4 (T4) Perimeter and area Week 2 - 2023-24 (17.4.24)

Work to Praise and Share

- Most very good at finding the area of a rectangle and understanding the link between this and times tables.
- All good at counting squares inside a shape, as well as multiplying the measurements when the compound shape is already divided into 'A' and 'B.'
- Mostly ok with estimating area when using the squares to help.

Support Needed

Presentation Highlights

Basic Errors

- Most children found it tricky when they had to partition the compound shape into 2 or 3 smaller shapes themselves, instead trying to multiply all of the given measurements.

Next Lesson Steps

- More work needed on partitioning a compound shape themselves and remembering what to do with their (sometimes new) measurements.
