

Maths Year 5 Unit4 Week 5 (T4) Statistics Week 1 - 2023-24 (24.4.24)

Work to Praise and Share

- Mostly okay with drawing a line graph and plotting points using given information from a table
- Almost all ok with reading and interpreting information in tables
- Lucy and Scarlett W did not need as much help as usual during work on two-way tables

Support Needed

- Not much work done by Lucy or Romeo - mostly needed help understanding questions
- Jack G, Albert, Freddie and Sebastian can answer questions about the information in a table but struggle to work out/input their own - 2 or more step problems could be the issue here

Presentation Highlights

Basic Errors

- Some need to make sure they read the question carefully eg 'names of dogs' instead of 'weights of dogs,' 'which temperature' instead of 'which city'
- While most of the class can fill the tables in, they did need help with knowing which row or column to start with
