

Maths Year 5 Unit5 Week 4 (T5) Position and Direction Week 1 - 2023-24 (7.6.24)

Work to Praise and Share

- All very good at identifying and writing coordinates
- Toby T, Jack B and Mia R very good at working out the coordinates even without numbers on the x or y axis
- Translation skills improving across the class

Support Needed

- Mason, Lucy, Scarlett W, Sebastian, Albert and Alejandra need to be more thorough when lining up the vertices with the numbers on the axis

Presentation Highlights

Basic Errors

- Some help needed when plotting coordinates that begin with 0
- Majority need to be more accurate when finding coordinates using empty x and y axis - more emphasis needed on them writing the numbers onto the axis themselves
- Children also need to be aware that the numbers on the axis do not always go up in ones
- Corey writing '2 squares across' instead of '2 squares right' when describing a translation
