

Maths Year 5 Unit1 Week 2 (T1) Place Value 1 - 2023-24 (9.9.24)

Work to Praise and Share

- Most middle set children had a good understanding of numbers to 10,000 - they could add to and take away from these using smaller numbers and could organise them onto a place value chart
- Most of the class more confident when working with numbers up to 100,000. Great work from Sam, Aniyah, Olivia, Ben H, Freya and Albie
- Most of the class now more secure when using a comma in the right place (after the thousands column) when using numbers up to 1 million.

Presentation Highlights

Next Lesson Steps

Support Needed

- Caine, Keegan, Skyla, Poppy, Theo and Claudia seemed able to work with these numbers but worked more slowly
- Mata very unsure, as was Millie-Anna - struggled to do more than two questions without help
- Mata, Caine, Millie-Anna and Oscar needed lots of support with understanding counters within a place value chart, especially with knowing what to do when 10 counters appeared in the same column.
- Araya, Oscar and Millie-Anna needed lots of help with identifying a number from a place value chart correctly

Basic Errors

- Most need more work on writing the 6 digit numbers in words and reading them out loud
- Claudia, Lyla, Skyla and Theo needed some help placing the comma in the right place.
