

## Maths Year 5 Unit2 Multiplication and Division A2 - 2024-25 (7.11.24)

### Work to Praise and Share

- Most ok with prime numbers and the idea that these numbers only have 2 factors
- All had a good grasp of squaring a number and understanding that a square number is what you get when you multiply a number by itself
- Generally ok with cube numbers, although some struggling to multiply a number by itself once and then again

### Support Needed

- Caine, Claudia and Theo struggled with writing the factors but could tell if a number (up to 20) was prime
- Harry, Araya and Millie-Anna needed lots of support

### Presentation Highlights

### Basic Errors

- errors here

### Next Lesson Steps

- More work needed on recognising that 6 to the power of 2 is the same as 6 x 6
