

Maths Year 5 Unit2 Fractions A2 - 2024-25 (28.11.24)

Work to Praise and Share

- Majority of the class very good at converting mixed numbers into improper fractions, and setting out is improving too. Of the LA children, Oscar P was particularly impressive.
- Another good lesson for most when comparing fractions less than 1

Support Needed

- Araya needed lots of help.
- Araya, Skyla, Claudia, Lyla and Millie-Anna found comparing fractions less than 1 tricky - main issue is not reading whether the question wants the 'greater' or 'smaller' answer.
