

Maths Year 5 Unit3 Multiplication and Division B Week 1 - 2024-25 (16.1.25)

Work to Praise and Share

- All very good at multiplying a 4-digit number by a 1-digit number using the column method
- Good work from Araya and each of the lower middle ability children, especially Claudia and Caine
- Most struggled with the grid method at first, but just over half of the class now seem okay with it.
- River, Ben H and Alice good at multiplying 2-digit by 2-digit numbers and setting their columns out accurately

Support Needed

- Mata and Millie-Anna needed some help to get started
- Grid Method: Those who need lots of help, especially with their setting out and times tables accuracy, are Harry, Millie-Anna, Caine, Araya, Isabella, Mata, Max and Aniyah.

Presentation Highlights

- Millie not using one number per square when setting out her work in columns

Basic Errors

- errors here

Next Lesson Steps

- River, Ben H and Alice to move on to 3-digit x 2-digit, everyone else to have one more lesson on 2-digit x 2-digit
